Our Experience with Choice Neighborhoods

Urban Strategies partners with a diversity of stakeholders in Choice Neighborhoods sites to create and implement comprehensive neighborhood plans with a focus on human service needs. We owe our success with Choice Neighborhoods to our commitment to using a Results-Based Accountability framework that governs our approach to service delivery. We are using data to constantly measure and improve our programs for children and families

in real time. Using our LEARN (Learning for Effective Actions to Re-vitalize Neighborhoods) performance measurement system, Urban continuously builds evidence on what works best for the more than 30,000 families we serve. We aim to further build upon early successes with Choice to realize our organizational vision that "All families are stable and thriving".
